

## CURRICULUM VITAE

### **BENJAMIN S. TWINING**

Senior Research Scientist  
Director of Research and Education  
Bigelow Laboratory for Ocean Sciences  
60 Bigelow Drive  
PO Box 380  
East Boothbay, ME 04544  
Tel: 207-315-2567 ext 309  
Email: [btwining@bigelow.org](mailto:btwining@bigelow.org)  
Web: [http://www.bigelow.org/research/srs/benjamin\\_twining/](http://www.bigelow.org/research/srs/benjamin_twining/)

### **Education**

- Ph.D. Stony Brook University, Coastal Oceanography (2003)  
Dissertation title: “The accumulation and trophic transfer of trace metals by protozoa”  
Advisor: Nicholas S. Fisher
- A.B. Harvard University, Environmental Science and Public Policy, *Magna cum laude* (1997)

### **Professional Experience**

Director of Research and Education, Bigelow Laboratory for Ocean Sciences (2013-present)  
Co-Interim Director of Finance and Administration, Bigelow Laboratory for Ocean Sciences (2013)  
Research Scientist, Colby College (2009-present)  
Senior Research Scientist, Bigelow Laboratory for Ocean Sciences (2008-present)  
Assistant Professor, Department of Chemistry and Biochemistry, University of South Carolina (2005-2008)  
Associate Faculty, Marine Science Program, University of South Carolina (2005-2008)  
Postdoctoral Fellow, Aquatic Chemistry Laboratory, Yale University (2003-2005)  
Research Assistant, Radioecology Laboratory, Stony Brook University (1999-2003)  
Research Technician, Aquatic Botany Laboratory, North Carolina State University (1997-1998)

### **Honors and Awards**

Gaylord Donnelley Environmental Postdoctoral Fellowship (2003)  
Woods Hole Oceanographic Institution Postdoctoral Scholarship (2003, declined)  
AGU Outstanding Student Paper Award, San Francisco Fall Meeting (2002)  
ASLO Student Poster Award, Albuquerque Aquatic Sciences Meeting (2001)  
NSF Graduate Fellowship Honorable Mention (1999)  
Pieper Merit Award for outstanding entering graduate students, Stony Brook University (1998)  
Okubo Award for outstanding students in oceanography, Stony Brook University (1998)

### **Professional Memberships and Service**

Association for the Sciences of Limnology and Oceanography, American Geophysical Union,  
The Oceanography Society  
Finance Committee, Association for the Sciences of Limnology and Oceanography (2014-2017)

Manuscript reviewer for *Aquatic Biology*, *Biogeosciences*, *Biology Letters*, *Deep-Sea Research*, *Ecology Letters*, *Environmental Chemistry*, *Environmental Science and Technology*, *Environmental Toxicology and Chemistry*, *Estuaries and Coasts*, *Estuarine, Coastal and Shelf Sciences*, *Geochimica et Cosmochimica Acta*, *Geobiology*, *Geology*, *Global Biogeochemical Cycles*, *Journal of Geophysical Research*, *Journal of Phycology*, *Journal of Plankton Research*, *Limnology and Oceanography*, *Limnology and Oceanography: Methods*, *Marine Chemistry*, *Marine Ecology Progress Series*, *Nature Climate Change*, *Nature Geosciences*, *Northeastern Naturalist*, *Oceanography*, *PLoS One*, *Proceedings of the National Academy of Science*

Proposal reviewer for U.S. National Science Foundation, American Chemical Society, French National Research Agency (ANR), Research Grant Council of Hong Kong, Advanced Light Source, Louisiana Board of Regents, National Synchrotron Light Source-II, Canadian Light Source, South African National Research Foundation

Co-Convener, Ocean Carbon and Biogeochemistry scoping workshop (2014): “Improving predictive biogeochemical models through single cell-based analyses of marine plankton physiological plasticity, genetic diversity and evolutionary processes”. East Boothbay, Maine.

Guest Associate Editor of special issue on “The microbial ferrous wheel: iron cycling in terrestrial, freshwater and marine environments” in *Frontiers in Microbiological Chemistry*  
Session co-chair, Ocean Sciences Meeting (2014): Linking Molecular ‘Omics’ Measurements to Develop Conceptual and Computational Models of Ocean Microbial Ecology, Diversity and Biogeochemistry. Honolulu.

Session co-chair, Goldschmidt Meeting (2012): Investigating Biogeochemical Cycling using Micro-scale Techniques. Montreal.

Planning Committee member, 3<sup>rd</sup> GEOTRACES Data-Model Synergy Workshop, Barcelona (2011)

Session co-chair, Ocean Sciences Meeting (2008): Trace Metal Biogeochemistry – Interactions Between Atmosphere and Ocean. Orlando.

Session co-chair, Aquatic Sciences Meeting (2007): Dynamics of trace metal stoichiometry in plankton: causes, effects, and implications. Santa Fe.

Judge, Regional Ocean Sciences Bowl, Columbia, SC (2007)

Session co-chair, Ocean Sciences Meeting (2006): Using Trace Elements and Isotopes to Study Open-Ocean Biogeochemistry. Honolulu.

Session co-chair, Ocean Sciences Meeting (2006): Equatorial Physics, Biogeochemistry, and Air-Sea Interactions. Honolulu.

Session co-chair, American Geophysical Union Fall Meeting (2003): Microbe and Mineral Interactions and the Biogeochemistry of Reduced Sulfur. San Francisco.

Science fair judge, Long Island Science and Engineering Fair (2000)

### **Research interests**

marine biogeochemistry, metal-plankton interactions, single-cell analysis, trace metal speciation and bioavailability, x-ray microscopy, ecological stoichiometry, global carbon cycling and climate change

**Peer-reviewed publications (\*denotes student or post-doc first author)**

- Lam, P.J., B.S. Twining, C. Jeandel, A. Roychoudhury, J. Resing, W. Geibert, P.H. Santschi, R. F. Anderson. 2015. Methods for analyzing the concentration and speciation of major and trace elements in marine particles. *Progress in Oceanography*. In press. doi: 10.1016/j.pocean.2015.01.005.

### **Invited presentations**

- October, 2014. Decoding the ocean's black box: exploration in global biogeochemistry through microbial oceanography. Bates College.
- April, 2014. Tracking the metallomic responses of phytoplankton to environmental gradients in the ocean. EAWAG. Dubendorf, Switzerland.
- October, 2013. Unraveling the roles of plankton in ocean biogeochemistry, one cell at a time. University of Tennessee—Knoxville. Knoxville, TN.
- August, 2013. The microbial ocean: Epicenter of life on earth. Phippsburg Land Trust Annual Meeting. Sebasco Harbor Resort, ME.
- August, 2013. Application of synchrotron x-ray fluorescence mapping and absorption spectroscopy in marine (and environmental) science. NSLS-II Early Science Workshop. Brookhaven National Laboratory. Upton, NY
- August, 2013. Studying the ocean through SXRF analyses of its smallest residents. X-ray Fluorescence Microscopy in Biology Workshop. Northwestern University. Chicago, IL.
- May, 2013. Tracking the metallomic responses of phytoplankton to environmental gradients in the ocean. 96<sup>th</sup> Canadian Chemistry Conference. Québec, Quebec.
- February, 2013. The microbial ocean: Epicenter of life on earth. First Parish Church. Brunswick, ME.
- December, 2012. Trace metal composition of marine plankton: Linking ecosystem form to biogeochemical function. Stony Brook University. Stony Brook, NY.
- December, 2012. *Silent Spring* Revisited: 50 Years Later. Cornerstones of Science. Portland, ME.
- November, 2011. Role of plankton in the cycling of trace elements and isotopes. GEOTRACES Data-Model Synergy Workshop. Barcelona, Spain.
- October, 2011. Exploring the Southern Ocean with Maine Scientists: Bringing Oceanography to Island Classrooms. 2011 Island Institute Teacher's Conference. Rockland, ME.
- August, 2011. Trace metal composition of marine plankton: Linking ecosystem form to biogeochemical function. Chemical Oceanography Gordon Research Conference. Andover, NH.
- June, 2011. FeCycle II: Quantifying the cycling of Fe and C during a spring diatom bloom. Modeling and Synthesis of Southern Ocean Natural Iron Fertilization Workshop. Woods Hole Oceanographic Institution. Woods Hole, MA.
- April, 2011. Insights into oceanic metal cycling from single-cell element analysis. Massachusetts Institute of Technology. Cambridge, MA.
- October, 2010. Studying ocean biogeochemistry, one cell at a time. Lafayette College. Easton, PA.

October, 2010. Antarctic Icebergs: floating estuaries in a warming world. COSEE Ocean Systems ROLE Model Webinar.

September, 2010. Global warming and Antarctic icebergs: floating estuaries in the Southern Ocean. Carleton-Willard Village. Bedford, MA.

June, 2010. Trace nutrient limitation and individual cell elemental composition. Bowdoin College. Brunswick, ME.

June, 2010. Mapping trace metals in marine plankton: clues to metal function and fate. Environmental Inorganic Chemistry Gordon Research Conference. Newport, RI.

March, 2010. Studying ocean biogeochemistry, one cell at a time. Colby College. Waterville, ME.

November, 2009. Elemental composition of plankton in the equatorial Pacific Ocean: Evidence of diatom co-limitation by iron and silicic acid. Old Dominion University. Norfolk, VA.

July, 2009. Global warming and the proliferation of icebergs: Floating estuaries in the Southern Ocean. Thornton Oaks Retirement Community. Brunswick, ME.

June, 2009. Global warming and the proliferation of icebergs: Floating estuaries in the Southern Ocean. *Café Scientifique*. Boothbay Harbor, ME.

May, 2009. Ocean science in the 21<sup>st</sup> century: Where has ocean science come since the publication of *The Sea Around Us?* Cornerstones of Science. Brunswick, ME.

May, 2009. Global climate change, the role of the oceans, and icebergs in the Weddell Sea. First Church in Wenham. Wenham, MA.

February, 2009. Examining the role of plankton in ocean biogeochemistry, one cell at a time. University of Maine. Orono, ME.

November, 2007. Examining the role of plankton in ocean biogeochemistry, one cell at a time. Georgia Institute of Technology. Atlanta, GA.

August, 2007. Examining the elemental composition of ocean plankton one cell at a time. University of Rhode Island Graduate School of Oceanography. Narragansett, RI.

August, 2007. The roles of protists in ocean iron biogeochemistry. Joint Annual Meeting of the International Society of Protistologists and the Phycological Society of America. Providence, RI.

June, 2007. Unraveling the roles of plankton in ocean biogeochemistry. Bigelow Laboratory for Ocean Sciences. Boothbay Harbor, ME.

March, 2007. Phytoplankton trace metal quotas across nutrient gradients in HNLC waters. Duke University Marine Lab. Beaufort, NC.

December, 2006. Examining the elemental composition of ocean plankton one cell at a time. University of South Carolina Department of Geology. Columbia, SC.

November, 2006. Planktonic metal stoichiometries in HNLC waters: A single-cell approach using synchrotron-based x-ray fluorescence. Texas A&M University—Galveston, TX.

October, 2006. Dynamic metal quotas in ocean phytoplankton: Insights from single-cell x-ray analysis. University of South Carolina Plant Biology Seminar. Columbia, SC.

October, 2006. Trace metal stoichiometries in ocean plankton: Insights from single-cell x-ray analysis. Coastal Georgia Environmental Symposium. Savannah, GA.

June, 2006. Metal cycling through plankton communities: a single-cell approach utilizing synchrotron-based x-ray fluorescence. Bigelow Laboratory for Ocean Sciences. Boothbay Harbor, ME.

- May, 2006. Breakthroughs in nano-related environmental- and geo-science: Scaling from nano to global. Molecular- and nano-environmental geochemistry working group. National Science Foundation.
- July, 2005. Measuring element stoichiometries of ocean plankton with a hard x-ray fluorescence microprobe. Advanced Photon Source User Science lunch seminar.
- May, 2005. Measuring element stoichiometries of ocean plankton with a hard x-ray fluorescence microprobe. Advanced Photon Source Users Meeting.
- February, 2005. Stoichiometric responses of Southern Ocean plankton to iron fertilization: Expanding stoichiometry to include trace elements. American Society of Limnology and Oceanography Aquatic Sciences Meeting. Salt Lake City, UT.
- August, 2004. Metal cycling through plankton communities: a single-cell approach utilizing synchrotron-based x-ray fluorescence. University of South Carolina, Department of Chemistry and Biochemistry.
- April, 2004. Metal cycling through plankton communities: a single-cell approach. Yale Institute for Biospheric Studies seminar series.
- May, 2003. Quantification and localization of trace metals in marine and freshwater protists using a synchrotron x-ray fluorescence microprobe. National Synchrotron Light Source Users meeting.
- March, 2003. Element stoichiometries within Southern Ocean nanoplankton communities as measured with a synchrotron x-ray fluorescence microprobe. Woods Hole Oceanographic Institution, Marine Chemistry & Geochemistry.
- May, 2001. Measurement of trace element concentrations in marine and freshwater microbes using x-ray microscopy. Biological applications of x-ray microbeams workshop, Advanced Photon Source.

### **Teaching experience**

Program Director, ‘Changing Oceans’ Colby @ Bigelow Semester Program  
Ocean Biogeochemistry on a Changing Planet (Colby College—BI 385B, CH 385)  
Climate Change and the Oceans (Colby College—ES 197a)  
General Chemistry (Univ. South Carolina—CHEM 111)  
Aquatic Chemistry (Univ. South Carolina—CHEM 624/CHEM 729/MSCI 624)  
Limnology (Stony Brook University—Teaching assistant)  
Organismal Biology (Stony Brook University—Teaching assistant)

### **Research cruise experience**

2014 IronBru cruise in California Current System: 23 days on *R/V Melville*  
2013 Bermuda Atlantic Time-Series ‘B-Val’ cruise: 7 days on *R/V Atlantic Explorer*  
2012 GEOMICS cruise: 7 days on the *R/V Thomas G. Thompson*  
2012 Great Southern Coccolithophore Belt cruise II: 35 days on *R/V Roger Revelle*  
2011 Great Southern Coccolithophore Belt cruise I: 35 days on *R/V Melville*  
2010 Bermuda Atlantic Time-Series: 5 days on *R/V Atlantic Explorer*  
2009 Iceberg III cruise in the Weddell Sea: 40 days on *R/V Nathaniel B. Palmer*  
2008 FeCycle II cruise in subtropical waters east of New Zealand: 23 days on *FRV Tangaroa*  
2008 Iceberg II cruise in the Weddell and Scotia Seas: 30 days on *R/V Nathaniel B. Palmer*  
2007 Iron in the Sargasso Sea (FeAST-2 cruise): 10 days on *R/V Atlantic Explorer*  
2004 Eastern Equatorial Pacific Biocomplexity cruise: 30 days on *R/V Roger Revelle*  
2002 Southern Ocean Iron Experiment (SOFeX): 41 days on *R/V Roger Revelle*  
2001 Lake Ontario Surveillance cruise: 5 days on *CCGS Limnos*  
2000 Microbial Ecology of the Lake Erie Ecosystem (MELEE): 7 days on *CCGS Limnos*  
1997 CalCOFI cruise: 4 days on *R/V David Starr Jordan* from Pt Conception to San Diego

### **Students**

Hai Lin (PhD 2009)  
Daliangelis Nunez-Milland (MS 2010)  
Allison Dalbec (MS 2008)  
Brandon Bozard (MS 2008)

### **Post-docs**

Jochen Nuester (2009-2014)  
Jeremy Jacquot (2013-2015)  
Daniel Ohnemus (2014-present)

Updated 2 February 2015
